DOWNFALLOFROME

ITALIANS CELEBRATED THEIR BIG DAY YESTERDAY.

SEVERAL HUNDRED PRESENT

RESTORATION OF TEMPORAL POW-ER TO THE PEOPLE.

Speeches Were Made by British Vice Consul Burrough, Italian Consul Fedeli, Dr. E. R. Heath and Joe Damico-Occasion Was a Success.

Italians of Kansas City gathered at Walruff's grove on the Southwest boulevard yesterday at noon and from that hour until late at night there was music, danc ing, speechmaking and other revelry. Between 200 and 200 were present at the picnic, which was given by way of celebrat-ing the 20th of September, the twentyninth anniversary of the fall of Rome, by which the temporal power was taken from the pope and restored to the people, bringing freedom and independence to united

In New York and Chicago and many other large cities of the United States the celebration was held September 29, but it was postponed until Sunday here in order that those who are employed week days might go. While the young generation danced in the pavillon to the tune of Ital-

A PORCE AND SANGE. The same more to same assessment of the finite and the same assessment on the same assessment of the same asse

Although there is not much change in the order of things at the Orphous the week, there is a decided change in one particular—the fact that the specialities are those of an organized company, instead of speciality engaged performers. The organization is the Tram-Decision's Especiality Company, under the managerment of Robert Fulgors. Some changes have been made in the company since it was seen at this house has offered for a long time.

The Microbio troups of scribbats and wire performers, together with their trained dogs, make a very strong feature, and have something original to offer. A. O. Dencan, the ventriloquist, one of the best of his class, makes a big bit with some, even if ventriloquist, one of the scribbats and serious feature, and have something original to differ the old papal state and the city of flows. The first class, makes a big bit with some, even if ventriloquist, and the controlled in the contro

dependence and the union of his country. On the other hand, they accuse the Italian mation as it religious people because they celebrate the fail of the temperal power, as they say. It should be understood that it is not the fall of the temperal power that the Italians celebrate, but the unification. It isn't that the people of Italy are antagonistic to the pope, or against the religion;

New-Warneke's 1776 Bread. Try it.

"It is an Ill Wind That Blows Nobody Good."

That small ache or pain or queakness is the "ill wind" that directs your attention to the necessity of purifying your blood by taking Hood's Sarsaparilla. Then your whole body receives good, for the purified blood goes tingling to every organ. It is the remedy for all ages and both sexes.

Hood's Sarsaparilla Never Disappoints

it is because the fact of the fall is an inevitable consequence—that the temporal power cannot exist with the unification—and the progressive elergyman knows perfectly well that the temporal power is a bining of the past and will never some again. Certainly, strangers as they are, they, do not care for the union of Italy, but the Italians care a good deal, on account of not having been a nation years before it lost its commercial presige, which could have made it one of the most powerful nations of the World, as it was before any other at the time of the World, as it was before any other at the time of the Roman sempire. Its generaphical location, its climate and the topography of the country—it could not have fallen if it had been united.

Oh, My Back!

There are hundreds of men and women to-day whose pod-ies are racked with pains of LUMBAGO and RHEUMA-They have "deped" themselves with drugs until the thoughts of medicine cause their stomach to revolt. These same drugs have so disorganized their digestive apparatus that the food taken into the body is not properly assimilat-

ed, hence they are but a shadow of their former selves. Stop taking drugs and he cured by NATURES OWN REMEDY, ELECTRICITY. For thirty years I have been a student of this subject, and have mastered the application of electricity, so that with my ELECTRIC BELT a patient may be cured while he or she sheets. I use a SOFT SPONGE ELECTRODE; which allows the whole current to penetrate the system in a spray, which does not cause burning and blistering, as do all other belts.
